

Ivy Lim: Frontend Web Developer

www.iylim.com | yunjilim@gmail.com | 714-467-6204 | Los Angeles, CA

I am a web developer working primarily with MERN stack, JavaScript, HTML, CSS and Ruby on Rails. Before becoming a developer, I was an executive assistant, which taught me how to multitask and work with every department in a corporate setting. I am passionate about React. I am currently working on a quiz for which WoW class to play using React.

SKILLS

JavaScript - ES6	jQuery	Restful routes	AWS
HTML5	Node/Express	JSON AJAX	Git/Github
CSS3	Socket.io	MongoDB/Mongoose	PostgreSQL
React	Ruby on Rails	Microsoft Office	OOP/design

PROJECTS

Fribble Frum

- Real-time multiplayer game built with the MERN stack and Socket.io.
- Used restful routing with Node.js and MongoDB to store data.
- Utilized CSS keyframe animations throughout gameplay.
- Responsive design for mobile, tablets and computers.

5 o'clock

- App for tracking restaurant deals and specials created with Express/Node, MongoDB, OAuth, Yelp API and Google Maps API.
- Developed as a team of four using customized middleware and restful routing to specified endpoints.
- I was the SCRUM master, coded backend functionality, connected with APIs and implemented real time updates via Socket.io.

Rockfall

- A web browser game similar to match 3 with DOM manipulation.
- Created with JavaScript, HTML, CSS and Bootstrap.

SoCal Senders

- A CRUD app using MVC architecture, Ruby on Rails, HTML, and CSS using token-based authentication.
- Users can add pictures, rate routes, and add comments.
- Ratings updated with DOM manipulation.

EXPERIENCE

Catalyst at Royal Corporation

January 2015 - June 2018 | Santa Fe Springs, CA

Royal Corporation is a distribution company that works mostly with movie theaters nationwide.

As an executive assistant, I worked directly with the president and vice presidents of the company.

- Promoted within 3 week at the company.
- Managed and maintained the company web store catalog of over 4000 items.
- Provided highest level of service to corporate customers.
